Daily Log

Tonga

Apr. 29, 1928

Landed in early Morning Sunday April 29, 1928 from T.S.S. Tofua. Baggage not opened by customs agents. To boarding house & engaged room. Still about town, met various people, arranged to charter government launch on Tuesday for trip to Eua (7-10-0). To boarding house - letters to Ted & Mike. Hesp. Party met in P.M. & went with Nelson, etc.

Following people met today:

Don. Dawson - C.M.O.

Mr. Talbot - Customs Officer

Mr. & Mrs. Wm. Smith - 13 Sandringham

Mr. Cargill - road overseer

Mr. Young - store keeper

Miss Taylor - store - horse Dept.

Mr. Anderson - plantation owner
Mr. Brown - hotel keeper
Mr. Johnson - (Barn) Chief
Mr. Wilson - Police Officer
Mr. William Sefforge - manager
Mr. Smith Jr - son boarding house keeper

Nukunono is a town of
8-10,000? population located on
north end of island of Tongatapu.
Several small islets to north of
the main island - all are small
low lying & support a vigorous
growth of coconut palms - at least
along coast. Approaching Tongatapu
the steamer passes through
lagoon reef. The day was
exceedingly calm but the reef
was marked by a line of
breakers. Reef was not exposed
at any time though tide was

fairly low. Remains of a
large steamer note on reef
to left of passage as one
enters. Starting an island a
two steamer comes up ~~to~~ near
wharf which is built at edge of
fringing reef. Warping her in
was a lot of a job. Three gigantic
anchors are imbedded in reef
near wharf & from these heavy
chains extend to edge of reef.
Launch carried down to 2 anchors
& gradually pulled boat into wharf.
Wharf is well built affair of concrete
- carries truck tracks & leads to
main street. Town well laid out
and remarkably clean. Plenty of
trees (some "Banyan" introduced), grass, etc.
New & very handsome building houses
Treasury, P.O. & Customs. Large
summers appear well cared for.
Main street is paved. There

automobile. Her number of notes
in Bay of Islands (called Irag-lara
here I believe). Took staff to
palace of Queen. Her husband
in few minutes. (Hon. Wm. Tuzi)

After dinner we took a walk.
Visited outside a native church.
Singing excellent. The Tongans carry
parts exceptionally well. Spoke
a long orator - a spellbinder though
we could not understand a word
he said! Tongans are very
religious. I guess it has done
them some good - at least they
have stiff wars & human
feasts & I suppose missionaries
deserve some credit for this.
I doubt if they know what
their religion is all about - yet
they are perhaps better Christians
than we.

Visited in Tofua with Mrs.
Totterill & Mrs. Hulse.

Apr. 30. - Mon.

To P.O., Bureau of Ship, customs, etc.
in early morning. Bought supplies for
Enia, etc.

Met: { Mr. Graham, Mgr. B.P.
Mr. Edwards
B.P. { Mr. Trotter - Asst Mgr.
Mr. Spencer
Mr. Green - Clerk

To Hakeaia - quarry in late AM.
(T.I.) - see B.M. VII 2-6.

To land office again in P.M.
Met Mr. Heenan & later Mr. Goldsmith.
Arranged to have maps traced.
Wrote letter to Tuzi, called upon
on General Wm Tuzi (2nd). Mr.
Hulse called. Worked after dinner.
Studied a bit & to bed. Are planning
to get a party & charter cutter to

10

May 1 - Tues.

May 2 - Wed

May 7, Mon - May 15, Tues. incl.

Left for the camp - we
went to the creek, and during the
day at the creek we found
typical *Desmodus* in the
creek bed. We followed up just
after dinner - about 6:30. We found
the creek after dark but did not
see anything but made collections
in the morning. Collecting insects, rocks,
specimens, etc. Breakfast with
chicken - going to milk, then
butter, coffee, (after) fruit (tinned)
- apples. We then got our equipment
together for day work. Charles
appeared while we were eating our
breakfast & had a snack in
the kitchen. We saddled our horses
& headed out for the ridge. Usually
we have a ride of an hour

or so before reaching the place
where we are to start work. Horses
go along in single file - Charles
usually first. There is not much
talk in the way but we often
discuss country as we traverse
- its topography, history, etc. Now &
again we pause a moment & perhaps
stop to examine them & collect
samples. Full discussion occupies a
fair share of our time. ^{some of} the
are suggested to account for
various features & the discussion is
often spirited. After a full day's ride
we were on the crest of the
divide. The *Desmodus*, *Desmodus*, *Desmodus*
& much for *Desmodus*. It was
the time for us to find the
camp of *Desmodus*, *Desmodus*, *Desmodus*, *Desmodus*
a *Desmodus*. We were about
12 to 15 miles. The morning

previous is repeated. In the afternoon
 we are finally sent to someone
 just before dark. I have seen
 a good spot of "Hong Kong. III"
 - a quantity of we climb up for
 supper. The meal is delicious -
 cold food in coconut milk, boiled
 yams, raw bread-fruit, mixed
 greens, coffee. In the evening we
 read a bit, work on our notes -
 in 30 minutes had a lot of lads.

Johansen is a short, stocky,
 Swede about 45-50 years old.
 His wife is London born & still
 talks with an English accent. They
 make a strange pair. He is
 rough & strong as an ox - she is
 slender & delicate. She is apparently
 well educated & clear in conversation.
 Don't have had (probably still have)
 children - in Samoa. She
 was born in 1871 & 1873.

Both are tremendous workers.
 He has handled much - has
 been ship carpenter & has
 made money keeping a general
 store. They are "retired" in Ena
 & expect to stay. Land - good
 plantation land can be obtained
 from the Tonga government on
 50 yr lease at 2/6 (or less) per
 acre per year. Most of his
 land was covered with sago
 bush. He is clearing it in
 blocks & raising coconuts, also
 bananae, corn, little cotton, etc.
 Has a large flock of fowls, turkeys,
 & ducks that are bringing in
 a bit of money. Has several
 pigs, a bull & 2-3 horses. Expect
 to have pigs later. Money is
 made in coconuts. Bananae &
 corn are primarily for food for

135
livestock & fowls. Here are large
trees planted in coconut.
There have been 5-7 years. The
men had them in 1 1/2 years & are
starting to clear second block.
After they begin to pull a good
tree will make 4 1/2 net per year.
3 nets make a pound of copra
an acre - price now is about
1/2 per¹⁰ pound (I think 1/2 pound).
I have heard work to start a
plantation - weeds must be
cleared out every 6 mos. & cutts
thorns cannot be turned in
until trees are above them reach.

Tuesday evening we said
goodbye to Schansum &
rode to Bhurana for night.
Our boy Charlie met us & conducted
us to his stepfather's house
- Herman. He had a royal feast

waited us - an entire roast
pig - a boiled fowl, game, beef
& butter & tea. The pig was a
lovely sight - beautifully browned
- his internal cavity stuffed with
leaves. We stuffed our own
cavities! After dinner the
clan gathered. We were
presented with tobacco, beads,
crab shells, etc. Dancing &
singing & very jolly time generally
till nearly midnight.

May 16, Wed

Departed reef near Bhurana
in early morning. Sailed on
Vargana & spent 9:00 at Suva
for tea - having
stuffed in some in suit. Small
trip over

May 17, Thurs

Afternoon - visit to
the school, etc. after performing
various duties & errands around
town.

To farewell party in evening
to Brother Dodds - who goes to
N. Z. - we to be ordained in
Church of Eng. & met party!
Danced till 2⁰⁰ AM

May 18, Fri.

Returned to Makenahia
quarry for additional collecting
& had fair success. At 11³⁰
we hired car & drove to Haverai
to take part in great feast
in honor of return of Crown Prince
from visit to Australia. Haverai
is chief who works in Tapa
office. Several hundred
natives attended & half

day or two previous. Tapa
there but not the Queen. We
were met by Haverai who was dressed
in shirt, trousers, shoes & socks, & a
number of other people around us -
the last giving him a very good appearance.
We were conducted to seat near the Crown
Prince. A long row of mats stretched out
Tapa suspended from poles stretched the
quilt. About 100 or some 11 in front
was 23 Tapa's around in gold attire.
These painted, beaded, etc. in hair, etc. Behind
were large drums. The 23 were
represented by their family
just as we were - standing of it.
(Anderson says - one signifier & another
lower hand on left). Great smoking pipe
by the dozen, porridge, yams, taro, etc.
pineapple, etc. & very fast Tapa
dressed in gold, etc. etc. etc. etc.
pieces of coconut, milk, curries, etc.
Tons of food. During the meal

Went back down to shore & collected a few more & then a woman in the boat went to long distance. The water was calm & the sky was clear. More taken immediately after meal.

Returned to Nukunono, watched football game for a time and rested before dinner.

To Mr. Ferguson (p.?) house in eve for "500" with Mr. M., & Mrs. Ferguson & I. Wm.

Sat. May 19

Hired car again & mailed flowers for more pictures, cases, & etc. for additional notes, etc. Returned late to boarding house.

Sun. May 20

Wrote notes & letters & prepared for trip to Falea Id. in early part of day. Lrv. on Fetuake a few minutes past 3:00 - see B-M VII p. 55, etc.

Mon. May 21

Falea Id. trip - See B-M VII p. 58-80.

Tues. May 22

Return from Falea in morning. Before steamer arrived. Saw yesterday bringing letter from Mike & one from Yale. Spent balance of day cleaning up specimens & writing Falea Id. paper. To see Mr. Page in eve. - in charge for Fetuake! End to list.

Wed May 23

Up at 4:30. Night watch & worked
on Pulcar Island paper until 11:22
- could not get on until two am.
Day watchman munggy-at and let
them come to be a "paper factory"
just outside my window. There is
there but lantern from daylight till
dark.

Hired car & took trip around
eastern end of island. Worked on
Pulcar Island paper till nearly
midnight.

Thurs May 24.

Worked on notebook till 9:30, hired
car & examined western end of island
all way to NW tip. Passed through
Kobon where thousands of flying foxes
roost in the trees during the day. There are large
fruit bats. They are said to eat mango
mango apple, etc. - some coconuts. I tried

never disturb them at their roost. They are
more or less silent here. They hang in
clusters all along tops of trees which are
more or less denuded of their foliage. They
squeak loudly, have strong odor, & drooping
feet etc.

Saw Queen Salote Towbon (Too-bow)
attending first group of people.

Returned in time for supper & play
cards in evening with Fanyuon & friends.

Fri. May 25

Up at 6:30 & examined flying fox
roost at Kibon before breakfast.
Spent morning writing notes & working on
map. Shower at intervals during night
& morning.

With Fanyuon & Togo to the plantation
some 2000m from Muna. Found out
in the 2000 & 3000 m. but none
from Muna.

To be seen some of your
fruit, fish, etc. Bunker & Lathin

Sat. May 26. All day at the Midway.
Spent the forenoon & to
examine small hole of elevated
coral ls. in a M. Lagoon in
Lagoon before dinner. Rest today
& tomorrow for dinner (noon). Return
to Mukualofa in time to witness
most of football game. Mon
12. Tailor College - former morning.
To Mukualofa club after
dinner. Ended with champagne
fanned party at Smith. Till 1⁰⁰ AM.

Sun. May 27

Packed with letters. Received
25 letters on Tofua.

Mon. May 28

Sailed at noon on Tofua.
Passed Tokon Is. at 4⁰⁰. They
still flying on summit. Went
notes & settled letters in evening.

Tues. May 29

Arrived off Pangai on Island of
Lafeka (Hogaa Sharp Top) in early morning.
Went ashore for ^{two hours} geologic & reconnaissance.
Left about 10⁰⁰ AM for Varan group.
Arrived at Meafu Is. on island of
Varan about 4⁰⁰ PM. Took luggage
ashore for fumigation & met Mr Dalton
(Mgr. M.H.) "y. town." He is back in
evening.

Wed. May 30

Up early for climb to top of hill
near town. Later hired a car & went to
"Laker" side of island, returning at 1³⁰.
Tofua sailed at 5⁰⁰, left Ed on Varan.
Spent evening writing, early to bed.

Thurs. May 31

Up early. Worked on notes. Spent morning
and afternoon in not yet in evening
all day.

Thurs. May 31 (crossed date line going E)

about 1000, Western Survey at
only 1000 - so not about 1000
weight plus 1000 to 1500. ^{2 1/2}
Main survey a new combined
and as possible from 1000 to
new the required.

Spent morning making a section
across top west of lake. Went out
at 12:00 & purchased typewriter. Took
trip with report. Went home again
in P.M. & in evening.

Fri June 1

Spent morning on report. Went
to Miller. Called at 10:00 for Sam. Spent
evening with Miss Callahan.

Sun June 3 (Saw 1st line from W)
